

**NOTICE OF INTENT TO ADOPT MITIGATED NEGATIVE DECLARATION ALAMEDA COUNTY  
PUBLIC WORKS AGENCY**

*Patterson Pass Road Safety Improvement Project*

The proposed Patterson Pass Road Safety Improvement Project is intended to improve roadway safety along an approx. 1300 foot section of that road, approx. 7 miles east of Livermore. It would reconstruct both lanes and widen the roadway and shoulder adjacent to the eastbound lane approximately 8 feet. The project would include the following components: (1) removing and relocating an existing barbed wire fence approximately 20 feet to the south; (2) placing and compacting soil fill with a 2:1 slope leading from the new gravel shoulder southerly onto the grazing land between MP 6.33 and MP 6.60; (3) excavating and reconstructing the road shoulder; (4) placing and compacting aggregate base for the expansion of the paved road section; (5) placing and compacting new asphalt concrete surfacing atop of the aggregate base, (6) placing and compacting an aggregate base layer along the road shoulder; and (7) installing a 400 foot long metal guard rail between MP 6.50 and MP 6.58.

The Mitigated Negative Declaration (MND) and the initial study upon which it is based are available for review at the Alameda County Public Works Agency offices 399 Elmhurst Street Hayward, CA 94544 and at the PWA Website: <http://acgovt.acgov.org/pwa/library/environmental.htm>. The document concluded that with proposed mitigation, the project would not result in any significant adverse impacts. If you disagree, please include your reasons with your written comments. The Alameda County Board of Supervisors will consider the MND and all comments received prior to its adoption or approval of the project. Written comments will be accepted during the public review period from July 17, 2013 to August 16, 2013. Comments should be addressed to [jimb@acpwa.org](mailto:jimb@acpwa.org) or the address below:
